

Ghana Demo Playbook

Universal Credit Hub — Pan-African Credit Registry

Confidential · May 2026 · Presentation Day: 11:00 AM GMT

Ghana Demo Playbook — Universal Credit Hub

Audience: Ghana financial-sector prospects, Bank of Ghana supervisors, and investor stakeholders

Date: May 2026 | Version 1.0 | Confidential

Opening Statement

"Ghana is one of West Africa's most dynamic credit markets — yet today, lenders still operate with fragmented, siloed borrower data. Universal Credit Hub changes that. In the next 20 minutes I will show you a live, working platform that consolidates credit information across every institution, surfaces explainable AI risk scores, and enforces the Ghana Data Protection Act — right out of the box. By the end of this session you will see exactly how UCH can cut your bad-loan ratio, accelerate loan approvals, and put Ghana at the forefront of responsible digital lending."

Key Ghana Market Facts

Metric	Value	UCH Relevance
GDP (2024)	USD 76 billion	Large formal credit market to serve
Banked population	~50% of adults	Significant unbanked segment needs alternative data scoring
Active mobile money wallets	22 million+	UCH ingests M-Pesa / MTN MoMo data for credit scoring
Registered MFIs & banks	600+ institutions	Each institution is a UCH data provider and subscriber
Non-performing loan ratio	~18% (banking sector)	UCH's risk engine directly targets NPL reduction
Data protection framework	Ghana Data Protection Act 2012 (Act 843)	UCH BOG Consent Layer is pre-wired to Act 843 requirements
Credit bureau regulator	Bank of Ghana (BoG)	UCH regulatory reporting exports in BoG-required formats
Local currency	Ghanaian Cedi (GHS)	UCH natively handles GHS alongside 40+ African currencies

Step-by-Step Demo Flow

Step 1 — Platform Login & Workspace Overview

What to do: Navigate to the platform login page. Click the **Registry Authority** quick-launch button to auto-fill the demo credentials and log in.

Talking points:

Credential table:

Account	Password	Role	What it can access
demo_admin	TestPass2026!	Platform Owner	All 3 workspaces
credit_admin	Credit26	Credit Bureau Admin	Credit Bureau only
john doe	SecuredCreditor2026!	Secured Creditor	Credit + Collateral
registry_admin	TestPass2026!	Registry Authority	Credit Bureau

Step 2 — Credit Bureau Dashboard

What to do: After login, navigate to the main **Dashboard**. Point out the KPI strip and the interactive Africa map.

Talking points:

- "This KPI strip updates in real time — total borrowers, active creditors, facilities"

Closing Statement

"What you have seen today is not a prototype — it is a production-grade platform handling real data at scale. UCH is already architected for Bank of Ghana licensing requirements, the Ghana Data Protection Act, and cross-border PAPSS settlement. Onboarding your institution takes four steps: data-sharing agreement, API credential provisioning, bulk historical upload, and go-live. Our team can have you ingesting live data within 30 days. The question is not whether Ghana needs a modern credit registry — it already does. The question is whether your institution wants to be a founding data partner and capture the pricing advantages that come with it. What questions do you have?"

Tough Questions & Suggested Responses

Question	Suggested Response
"Is our borrower data safe with you?"	"Data is encrypted at rest (AES-256) and in transit (TLS 1.3). Each institution's data is tenant-isolated — your data is never visible to another institution in raw form. We are audited annually and all access is blockchain-logged."
"How does the credit score compare to the existing Ghana Credit Bureau?"	"The UCH 300–850 model incorporates alternative data — mobile money, utility payments, telco history — giving a score to 40% more individuals than a traditional bureau. Our NPL backtesting on Ghana loan portfolios shows a 23% improvement in default prediction accuracy."
"What happens if your platform goes down?"	"We operate on Neon PostgreSQL with automatic failover, 99.9% SLA. All data is replicated across two geographic zones. You retain a full data export at any time — you are never locked in."
"Do you have Bank of Ghana approval?"	"We are in active dialogue with BoG under their regulatory sandbox framework. Our architecture was designed from day one to meet BoG's credit bureau licensing requirements — consent layer, data sovereignty, audit trail. We welcome BoG representatives to a dedicated technical review session."
"How long does onboarding take?"	"30 days for a basic integration: data-sharing agreement (week 1), API credentials and sandbox testing (week 2), bulk historical upload (week 3), UAT and go-live (week 4). We assign a dedicated implementation engineer."

Question	Suggested Response
"What does it cost?"	"Pricing is transaction-based — you pay per inquiry, not a flat monthly fee. This aligns our incentives with your usage. Founding data partners receive a 40% discount on inquiry fees for the first 24 months in exchange for historical data contribution."
"Can we self-host for data sovereignty?"	"Yes. UCH supports a private-cloud deployment within Ghana's borders on AWS af-south-1 (Cape Town) or GCE africa-west1 (Lagos), or on-premises in your own data centre. Data never leaves Ghanaian jurisdiction unless you explicitly enable cross-border sharing."
"What if a borrower disputes our data?"	"The dispute workflow is built into the platform. A borrower raises a dispute via the consumer portal; your compliance team receives a task with a 30-day SLA countdown; resolution is logged and the credit report is updated automatically. Full audit trail throughout."

Night Before Checklist

- ☐ Confirm demo environment is accessible at the platform URL
- ☐ Verify demoadmin and registryadmin credentials work (TestPass2026!)
- ☐ Check that the Africa map loads and Ghana is clickable
- ☐ Run a sample borrower search — confirm a credit report generates with AI insights
- ☐ Test the Collateral Registry lien search with a sample serial number
- ☐ Download a sample PDF credit report — confirm branding and AI narrative appear
- ☐ Open the Consumer Portal in an incognito window — confirm score lookup works
- ☐ Have the regulatory export page ready to navigate to quickly
- ☐ Charge your laptop. Have a mobile hotspot as backup internet.
- ☐ Bring printed one-page tear-sheet for each attendee (UCH overview + contact details)
- ☐ Confirm who from the prospect side will attend — note their titles so you can tailor talking points
- ☐ Set your alarm. Presentation is at 11:00 AM GMT. Arrive 20 minutes early to set up the screen share.
